I am a PhD student in the Department of Computer Science at the College of William and Mary, being advised by Dr. Adwait Nadkarni. My research interests lie in analyzing the security practices of modern operating systems as well as designing practical security frameworks for such systems. Currently, I am working as a Security and Privacy Intern at IBM research. For my PhD, I am working at the Secure Platforms Lab (SPL) at William & Mary under the supervision of Dr. Nadkarni. My work on the security analysis of smart home platforms has been featured in multiple news outlets!
